

# INTRODUCING OUR NO-COST REVENUE SHARE GAMING UNITS

**MC Gaming can significantly enhance your establishment's revenue while providing additional entertainment to your guests.**

Many bars and restaurants are experiencing a decline in alcohol sales, particularly among Gen Z's and due to trends like weight loss medications/injectables. Our unique entertainment solution offers a way to adapt and thrive in this changing market.

## ENGAGING ENTERTAINMENT

Our legal gaming units look and operate like traditional casino machines, but are designed to ensure no chance or gambling is involved. Each machine features a grand prize of \$10,000, attracting customers to play and stay longer.

## LEGAL ASSURANCE

We provide a letter from the Attorney General affirming that our machines are classified as video games, not gambling. This ensures you, as a business owner, are fully protected while offering a fun and engaging experience to your patrons.

## REVENUE POTENTIAL

While actual earnings vary depending on your location's traffic, establishments similar to yours are reporting revenue increases of thousands of dollars monthly. Imagine the possibilities of adding this revenue stream without upfront costs!

## SIMPLE SETUP

We handle shipping and installation at no cost to you. All you need to provide is internet access and electricity. The footprint of our machines is comparable to a standard video gaming machine, making them easy to incorporate into your space.

## USER-FRIENDLY EXPERIENCE

Players can view their outcomes before playing, which enhances their experience. Interestingly, about 90% of users engage with the machines as if they were traditional slots, making it feel like a regular gaming experience.

## FLEXIBLE PLACEMENT

**Our machines are perfect for various venues, including**
